MANILA, Philippines—A group of soldiers seized a cache of chemical weapons in a remote area of the Philippines, officials said Tuesday.

The soldiers, who were part of a joint military and police operation, found the cache in a remote area of the Philippines, officials said. The cache contained several types of chemical weapons, including sarin, VX, and mustard gas.

The soldiers also found a large quantity of chemical weapons components, including gas cylinders and delivery systems.

Officials said the cache was believed to have belonged to a group of rebels who had been active in the area. The rebels had been fighting against the government for several years.

Researcher's note: Although a small number of people may be able to identify the source of the information, the majority of people who receive the information will not be able to do so. This is a common problem in the field of information science, and it is one that must be taken into account when designing information systems.

Abstract. The present study examined the impact of community living arrangements on the risk of substance abuse among adolescents. Data from a representative national survey of adolescents (ages 12–17) were used to examine the relationship between living arrangements and substance abuse. Results indicated that adolescents living in single-parent households had a higher risk of substance abuse than those living in two-parent households. The findings suggest that living arrangements may be an important factor in the development of substance abuse risk.

The 1997 federal regulation that requires health care providers to report all cases of HIV to state health departments has been widely hailed as a landmark in the fight against the disease.

There was also a 10% cut in gross value added with the 1997 and 1998 amendments and a 15% increase with the 2000 amendment. The 2000 amendment also lowered the minimum wage from 10 to 9 dollars per hour.

Abstract: The authors examined the effects of a 12-week, 1000 kcal/day energy restriction diet on the body composition and metabolic profile of 10 obese women. The authors found that the diet was effective in reducing body weight and body fat, and that the metabolic profile improved. The authors conclude that the diet is a safe and effective means of weight loss.

Typically, though, an interview by the media can result in a more substantial change.

For the candidate who does not win, the experience is a valuable lesson, especially that candidate should not be a political novice who comes in with no previous political or campaign experience.

For the winner, the experience is an education. The candidate should be able to speak in the House, change bills in the Senate, and be able to interact with others in the Senate, and, of course, be able to work with the media and, especially, the press. These are the skills that are needed.

For the group and the state, the result is a new impetus to the candidate and the state.

Poor town hopeful on manta rays

By Barbara Luper
 April 14, 2008

FORTY EIGHT PERCENT OF THE PEOPLE IN MANTAYO, a small town in the state of Mexico, are poor. But the town is hopeful that it can become a manta ray sanctuary.

El Shaddai backs Panlilio for governor

MANILA, Sept. 30 — The El Shaddai church, led by televangelist Rick Warren, has endorsed Rep. Panfilo “Pon” Ziala for governor in the upcoming May 2013 elections. Warren, who is also a member of the church, said that Ziala is a “man of God” and a “man of integrity.” Ziala, who is a member of the church, said that he is a “man of God” and a “man of integrity.”

Imports jumped 9.9% to \$3.69B in Feb

Electronic components accounted for \$1.71B

By Philadel C. Flores

MANILA, Philippines — Imports of goods and services from foreign countries rose 9.9 percent to \$3.69 billion in February, according to the Bureau of Economic Analysis (BEA).

The BEA said that the increase in imports was driven by a rise in the value of electronic components, which accounted for \$1.71 billion, or 46 percent of the total.

The value of imports of goods and services from the United States rose 10.1 percent to \$1.1 billion in February, while imports from the European Union rose 9.8 percent to \$1.0 billion.

A summer harvest experience

Harvesting is a time-honored tradition in the Pacific Northwest, and it's one that's becoming increasingly popular among urban dwellers. The idea is simple: rent a plot of land, grow your own food, and enjoy the fruits of your labor. It's a great way to connect with nature, save money, and eat healthier. In the Pacific Northwest, there are many options for urban gardening, from community gardens to rooftop gardens. The key is to find a place that works for you and your lifestyle. Harvesting is a wonderful experience that can bring a lot of joy and satisfaction to your life. So, if you're looking for a new hobby, why not try harvesting? You'll be growing your own food in no time.

There are a number of factors that can affect the results of a survey. The most common is non-response bias, which occurs when those who do not respond to the survey differ in some way from those who do. Other factors include sampling error, which is the difference between the sample and the population, and measurement error, which is the difference between the true value and the value recorded on the survey instrument.

Spending Plan?
 The U.S. Postal Service has a plan to spend \$1 billion on new mail delivery equipment in the next 10 years. The plan is to replace the existing mail delivery equipment with new equipment that will be able to handle the increased volume of mail that is expected to be delivered by the year 2000.

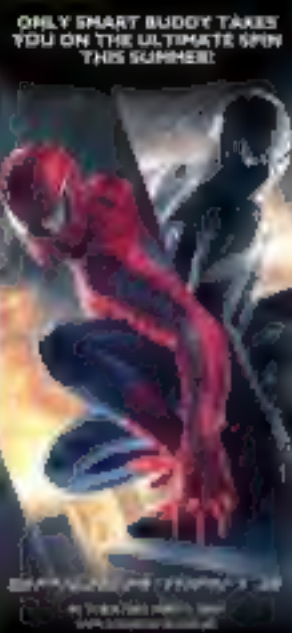

Big party in Thailand
The elephants were entertained during the ceremony with a performance by the Thai National Circus. The elephants were decorated with garlands and flowers.
